

Become a Sponsor

Would you like to support OneLoveOneWorld in this mission? You have the opportunity to enrich a child's life by contributing to the program of your choice. Any donation is greatly appreciated.

Daycare Center

With only US \$35 per month you will secure for a child:

- Six full days a week of support in the Daycare Center
- Two meals a day
- Preventative health and medical supplies
- Play, tinkering, and teaching materials
- Educational preparation for school along with stationary
- Trip every 3 month

Home for Children

US \$85 a month covers the following expenses of a child:

- Accommodation
- Food
- Learning and play materials

About Us

OneLoveOneWorld is a non-profit organization registered in both Nepal and Germany. We are dedicated to the planning and execution of various social projects which aid the disadvantaged youth of Nepal. We offer the possibility of stepping out of poverty by providing them with the care, self-respect, and necessary skills to succeed in life. We work holistically, aiding families in self-help and areas beyond the child's immediate needs. Thus our projects provide a preventative means against such social issues as child labor, disease, neglect, and more. In keeping with our organizational values, all of our programs are executed solely by qualified Nepalese employees.

- Preventative health and medical supplies
- Life skills-based education
- Leisure activities (trips, music lessons, or club sports)
- 7 US Dollar goes on a savings account for the child

School Sponsorships

With the assumption of a school sponsorship in the amount of US \$25 per month, you provide for a child:

- Six days of school attendance per week
- Balanced midday meals in the school cafeteria
- Mandatory school uniform and shoes
- School materials including, but not limited to, a book bag, books, notebooks, and pens
- Leisure wear, if necessary

As a sponsor, you will receive an annual report, newsletter, and photo from your godchild.

Or you can choose to support us in one of the following areas:

Working with Families – Support of families and emergency crisis assistance

Homework Support – Provision of trained mentors, acquisition of learning and play materials, a meal

Skills Training – Training and support of young people

These project sponsorships can be taken on starting with the commitment of US \$15 a month. If you are interested in this type of sponsorship, please see our website at www.OneLove-OneWorld.org for more information or contact us directly via Email mail@onelove-oneworld.org

Transparency

100% of your donation goes directly to our work. Just local staffs are in permanent positions. Transparency is of the utmost importance to us. We continuously publish information on our website to keep you updated and remain available to answer your questions at any time. We are always happy to hear your feedback.

Our Projects need your Support

Day Care Center

Our center provides daycare for infants whose families are living in extreme poverty.

The center is locally staffed by Nepalese care-givers trained to supervise up to twenty children. They provide a supportive, healthy, and creative environment, fostering the children's development through play and learning.

The daycare center is open six days a week. Our staff maintains open communication with parents and offers consultation and workshops in the areas of education, family life, nutrition, hygiene, and search for employment, among others.

Skills Training Program

Our skills training program takes a proactive approach to the high unemployment rate of Nepal's young people and the general lack of training facilities available to them. In keeping with our mission, the program is available to young people facing difficult circumstances arising mostly from family issues and poverty.

Home for Children in Emergency

Our living-group was created to provide a safe place for street children, orphans, and children in danger of physical and psychological abuse or neglect.

Currently there are eleven children growing up in this safe, family-like environment. Keeping the number of children low allows for individual development while maintaining a good social climate in the home.

Trained Nepalese staff live in the home, guiding the children in life's practical tasks and providing the support and counseling they need to process their individual traumas.

We also provide two places of emergency shelter for children facing acute danger.

OneLoveOneWorld offers skills training in the following occupations:

- Cook
- Electrician
- Construction
- Gas/Water Worker
- Cosmetologist

After training, our mentors provide support in job placement and job market orientation.

School Sponsorships

OneLoveOneWorld's school sponsorship program is concerned with children for whom social and financial issues have created barriers to education.

The program endeavors to overcome these obstacles and insure school attendance through private sponsorship. With concern for the family situation, our sponsorships are holistic. Beyond the school fees, all associated school costs are assumed by OneLoveOneWorld. Additionally, a balance meal is provided for the child at school.

After School Program

Education Secure: Homework supervision

OneLoveOneWorld believes in providing full educational support. The after school program is available when daycare children move on to school attendance. Living situations can make focusing on school and completing homework difficult for disadvantaged children. For this reason, our doors remain open to them. The living community staff continue a mentor role as students return to the organization to discuss their day, do their homework, eat, and play.

Working with Families

Before any action is taken, a holistic appraisal of the family situation is made. This includes the appraisal of specific needs and their level of urgency. Our educational specialists then work with families to develop an individual assistance plan under the direction of manager of the organization, Ritu Shrestha.

OneLoveOneWorld does on rare occasions support families financially, but mainly provides assistance in the areas of employment, education of children, and improvement of family life through motivation and networking.

In our experience, holistic family attention is essential to the success of our mission. Assisting parents in self-help efforts leads to their gainful employment. This is an important preventive means against child labor, illness, and social isolation.
